TEAMMATE TESTIMONIALS

“I joined the Women’s TRG as I wanted to network with other teammates as well as receive valuable information that would help me grow in my career and as a leader and it did NOT disappoint! I have come away from every single meeting with takeaways that I can put into practice both professionally as well as personally. This group is high energy, relevant and fun. Highly recommend this group to anyone that hasn’t joined yet!”

Michele Sanders

*Senior Director of Finance & Operations
Brown & Brown Retail — Esposito Region*

“As a new project manager, it can seem intimidating being around people with higher titles, but this community has shown that there are women out there that started exactly where I am now. My mentor suggested I join the Power of She and it has been a fulfilling and enriching experience. I have been inspired constantly to be a better leader and person.”

Justine Kwon Vergara

*Associate Information Systems Project Manager
Arrowhead General Insurance*

“Being a part of The Power of She community has strengthened my personal community at Brown & Brown. I so appreciated a recent session where leaders shared their career journey and how they balance the personal and professional, always a struggle and so great to hear real perspective from our female leaders. I am a Power of She mentor and have enjoyed getting to know my mentee, always so valuable to share information and I learn and grow from our discussions as much as I hope she does. I really think any teammate could gain value from this group!”

Kelly Dean

*Director of National Programs PMO
Arrowhead General Insurance*
